Workshop

“Save Energy, Save Money” Improve your bottom line.

The “Save Energy, Save Money” workshop is designed to provide practical energy efficiency conservation advice which can be incorporated into everyday working practices by those who attend, thereby being of immediate benefit to the business.

Who should attend?

Whatever your business or organisation, everyone who uses energy in some form should attend this workshop – they will all benefit.

Course content

This is primarily a non-technical course with several practical elements which attendees will be asked to participate in. No previous knowledge of energy and energy conservation is required.

Timetable

9.00 – 9.15 am	Registration
9.15am	Workshop introduction
9.30am	What is energy? How is energy measured? Who/what is using energy? Energy habits/ awareness
10.30am	Break
10.50am	Consumption of energy Cost of energy Carbon emissions
11.50am	Practical measures to reduce energy
12.30pm	Questions and answers
12.45pm	Finish

Workshop

“Renewable Technology” Long-term income for your business.

The “Renewable Technology” workshop has been designed to inform and equip key decision makers with the facts surrounding the advantages of incorporating renewable technologies into the business. At the end of the workshop, the attendee will have a clear understanding of the financial, marketing, energy saving and carbon saving benefits.

Who should attend?

This workshop is aimed at key decision makers within the business or organisation who have either a financial or environmental responsibility.

Course content

The course will examine the types of renewable technologies, income streams, financial return, capital, funding, marketing, carbon emissions, planning implications and case studies.

Timetable

9.00 - 9.15am	Registration
9.15am	Workshop introduction
9.30am	What are renewables / what can they be used for?
10.30 - 10.50am	Break
